At Passion Cards, our mission is **to make someone happy**. We believe that spreading happiness makes the world a better place. That's why every day, we create emotionally-designed products under our own brand *kukartka*, with heartfelt dedications and stunning visuals, to help you make someone's day. We invite you to partner with us in spreading positivity and creating unforgettable moments.

Founded in 1990 by two friends, Passion Cards is a proud Polish company that has stood the test of time. We specialize in high-quality paper and gift products, with a focus on greeting cards. With over 70 employees, our own local ceramic plant, paper finishing machines, and a state-of-the-art graphic design studio, we have the tools and expertise to make it happen.

We believe in long-term partnerships that bring mutual benefits. With production mainly located in Poland, we offer quick delivery and favorable conditions. Our own in-house graphic studio ensures that we always have the latest and most unique designs, and our dedicated support team is always ready to provide individualized advice.

Let's work together

TO MAKE SOMEONE HAPPY
