

# CERAMIC MUGS

own manufacturing plant in Poland

For the very beginning Passion Cards set up a local manufacture in Poland that produce **thousands of ceramic mugs** till today.

Since that time the company has launched plenty of seasonal collections offering single gift mugs, wedding and couple/anniversary sets, xmas ceramic gifts, parents and grandparents nice gift mugs.

**Gift boxes for ceramics** are also produced in Poland.

A large collection of illustrations and decorative designs are available for use for our partners thanks to digitized archives of our graphic studio.

**Supporting a local Polish business** has been also our core to assist the community where our people live and work. Giving the possibilities of employment close to their families and family homes is very crucial today.
